## **Location**

State Emergency Operations Center  
PPMR  
5636 E. McDowell Road  
Phoenix, Arizona 85008

Any jurisdiction that is planning on submitting a grant application for any of the FEMA mitigation grants is required to complete a benefit cost analysis as part of the application. Those individuals that attended the Grant Application Workshop this year understand the importance of this requirement. The software that generates this report has changed. This class will be utilizing the new revised software that is easier to follow. The class will be in [STARS](#) and all individuals will be waitlisted pending final approval by the mitigation office.

If you have a specific project that you are planning on submitting, bring it with you and we can work on your BCA for this class.
